Melcheds | Mello e Rached Advogados home of contemporary law, made up of people obstinate for excellence.

Formed more than a decade ago by a group of professionals with extensive experience in the legal market, [Melcheds Il Mello e Rached Advogados](#) is a Brazilian full-service law firm whose main objective is to establish a strategic, long-term partnership with its clients, based on trust, efficiency, technical quality, innovative solutions, and ethics.

The firm's history and growing have a different path from the most famous firms in the Brazilian business law market. Melcheds Advogados has a consistent experience in transactions involving o-level in Brazil, advising its clients on matters involving family business and middle-market companies, with its founders selling their businesses.

This fact has given to the firm a tremendous know-how about transactions involving founders, and turned the firm specialist in customer service, where the partners and associates have a mind oriented to advise all companies and in-house counsels, regardless of their sizes and

positions, as if they were the true owners of the business. The firm understands that every client has their own sensitive singularities and subjective elements influencing the business decision-making.

The firm are currently among the #10 Brazilian Law firms with more M&A Transactions, according to TTR - Transactional Track Record, also ranked by prestigious publications as Latin Lawyer, IFLR and Legal 500, and has been advising more than 300 national and multinational clients in the most important law practices.
